full print
cartridge not
starter cartridge

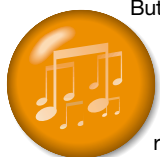

Combining leading edge fax technology with cutting edge style, the new FAX-T78 from Brother takes communications to a new level - one of simplicity, elegance and performance.

Simplicity

The key to contemporary product design is simplicity, and with the innovative index dial navigation system, ease of use is guaranteed. The index dial enables rapid one finger data selection and menu navigation, whilst the simple graphic layout of the key pad gives instant recognition of the many features the FAX-T78 has.

Elegance

The FAX-T78 will comfortably fit in any room in your home. Not only is it stylishly modern, with white casing and silver feature buttons, it's also stunningly practical. Its 2-line backlit display plus simple graphic icons keep you up-to-date with your messages and informs you of your consumable usage (i.e when ribbon is low) and your machine status, for example when the memory is full.

But it doesn't just look good. Using the latest audio technology, we've created a choice of superb quality ring tones and on-hold melodies that really sets the Fax-T78 apart from any other fax machine.

Performance

The Brother FAX-T78 is a fully featured fax machine. It's 20 page memory ensures that those vital fax messages are never missed, whilst its time-saving 10 page auto document feed leaves you free to get on with other things.

If it's crisp clear copies you want, the FAX-T78 delivers up to 99 copies with standard, fine, superfine and photo resolution modes. And with a digital answer machine capable of recording 15 minutes of phone messages, it really is the ultimate solution for the small office and home environment.

Display

Large, easy to read 2 line backlit display plus machine status icons.

Index

Rotary dial phonebook index and function navigator.

Digital Answering Machine

With up to 15 minutes recording capacity.

Hands Free Speaker Phone

Adjustable volume for hands-free conversation.

Music on Hold Key

Choose between 4 melodies and 8 ring tones.

(Not supplied)

Cordless Phone Management

The Brother FAX-T78 allows trouble-free use of external cordless phones.

Includes full print cartridge. Unlike many of our competitors, the FAX-T78 includes as standard a full print cartridge and not just a starter cartridge.
